Pelican/Zebra 300 series

COIN COUNTERS AND SORTERS FOR PROFESSIONALS

Effective coin handling!

MAXIMUM ACCURACY

MAXIMUM DESIGN AND USER FRIENDLINESS

MAXIMUM RELIABILITY AND DURABILITY

CTcoin ™

SIMPLY THE BEST
COIN COUNTER ON
THE MARKET

DESIGNED FOR PROFESSIONALS

The Pelican/Zebra 300 series, synonymous with accuracy, reliability, durability and gorgeous design. Both the Pelican and Zebra series have already set industry standards for quality, functionality and aesthetic design.

The two different design influences of the Pelican and Zebra series each represent their own unique functionality. The Pelican is easy to attend, operate and service. The design is clean and adaptable to any environment. The inspection tray of the Zebra offers easy removal of dirty and unfit coins. The special design increases counting capability and streamlines overall quicker and problem-free operation, thus providing a beneficial and professional appliance that effortlessly handles, counts and sorts the necessary coinage loads.

The Pelican and Zebra machines are the ideal coin counter and sorters for banking branches, large retailers, CIT applications as well as in all areas where large to medium quantities of coins must be counted and sorted quickly and accurately.

Having manufactured more than 40.000 Pelicans, sold in more than 50 countries worldwide, it is proudly the most sold machine on a global level.

The Pelican/Zebra series comes in different versions and offers:

Zebra/Pelican 301	counts coins.
Zebra/Pelican 305	counts and sorts up to 5 different denominations.
Zebra/Pelican 309	counts and sorts up to 9 different denominations.

The stainless steel inspection tray and specially designed coin feeder ensures fast and accurate coin counting and sorting with little to no down-time.

DID YOU KNOW?
The iconic Bang & Olufsen designer, David Lewis, was the artist behind the timeless design of the Pelican series.

Pelican/Zebra 300 series
FEATURE PACKED TECHNOLOGY

No other table top coin counter and sorter has the feature set of the Pelican and Zebra series. From the advanced CTcoin auto-calibration system for improved accuracy and coin acceptance, to error codes, bag stops and programmable cashier numbers.

Optionally, both series are available with high quality internal or external printers featuring an auto cutter, TrackSensorTM for active sorting, as well as a useful multibagging option in order to sort the same denomination into different bags/drawers. Both series can be equipped with a tubing and special bagging insert. The simplicity of the Pelican and Zebra series emerges from the free-flow or rail technology, thus limiting the amount of moving parts and allowing for near zero maintenance costs. With a counting speed of up to 1,100 cpm (1 EUR cent) and providing the highest accuracy, reliability and durability, these machines are true market leaders in their class.

The ergonomic metal stand for the Pelican and Zebra 309 can be adjusted to any bag height.

- Easy to operate, service and maintain
- Rejection of foreign and counterfeit coins
- Tubing and bagging kit option
- Automatic bag/draw stops
- Accepts up to 20 different denominations;
- Speed of 1,100 cpm (1 EUR cent)
- Cashier and ID number
- Acceptance of a single denomination and rejection of all others
- Multitude of various counters and counting reports
- Memory functions and error codes for easy problem solving
- Multibagging i.e. collect the same coin denomination in up to 3 different bags
- Active sorting of up to 2 denominations (TrackSensorTM)
- Optional Communication Module (XML transaction, event and verification data via USB/LAN)
- 2-year warranty and local technical support
- Cashier number, comprehensive fee system, dual language capabilities
- Optionally internal/external high quality printer with auto cutter, logo, barcode and header/footer capability
- Special colours and stand available
